

Momentum

Financial Support Services

A proven record of experience & expertise

The MIL Corporation (MIL) has an exceptional record providing expert and cost-effective Momentum services to the federal government. For over 40 years, MIL has provided superior functional, technical, and customer support services to federal agencies and their CFOs. Today, our team provides accounting, financial management, integration, testing/IV&V and O&M support services to federal agencies using CGI's Momentum.

MIL's Momentum support services focus on providing our federal customers with the right blend of experience and expertise. Backed by a seasoned project management team, MIL's first priority is to ensure that our clients receive the support they require and expect.

Comprehensive solutions

Our federal customers expect results – and we deliver. Year after year, MIL has routinely delivered successful project results in areas such as:

- » Quality Assurance, Testing, and IV&V
- » Training Services
- » Financial Policy Analysis and Development
- » Audit Preparation and Support
- » Statement Preparation
- » Reports Development
- » Operations, Maintenance and Helpdesk Services
- » Business Process Support
- » Implementation of Enhancements, Upgrades and Extensions
- » Tier I and II Subject Matter Expertise support for audits, financial statements and general system analyses.

MIL provides technical and functional support of Momentum applications and databases to the federal government. Our depth of knowledge enables our customers to take full advantage of the features and built-in flexibility of the Momentum suite. We tailor the standard package to meet specific business needs and provide database and middleware support.
